## Body Filter 95+®

Provides breathable protection with a holdout of particulate size down to 0.3 microns at up to 99% efficiency– that's similar performance to that of an N-95 respirator!

Body Filter 95+® protects the wearer against dangerous particulates while providing additional relief from heat build-up. Exceptional abrasion and tear strength makes this garment suitable for many tough environments including dirt, mold, dust in addition to the grease and grime found in many tough industrial settings.

#### Superior protection

Holdout of particulate size down to 0.3 microns at up to 99% efficiency.

#### Enhanced mobility

Wider, gusseted crotch gives the wearer more room to move in all directions without ripping fabric.

#### Durable design

Roomy, seamless shoulder area resists tears and provides more protection in key exposure areas.

#### Exceptional breathability

Designed for superior airflow and breathability compared to many competitive fabrics.
