

Knee Protection

Economical alternative to standard kneepads. Provides worker with comfort doing rough jobs

Disposable Knee Pads are designed to be worn over protective clothing or pants, but can also be worn under protective clothing or pants. Simply peel off the adhesive backing and stick to the appropriate surface.

- Help to reduce costs on worker's pants or coveralls.
- Works to eliminate/reduce skin abrasion
- Helps alleviate pain for workers that are on their knees for a prolonged period of time

- Protect both the knee and the clothing being worn
- Can be used multiple times or until adhesive backing is no longer effective
- Pads are strapless for wearer comfort
