

# Durable Plastic Shoe Covers

These reliable PE and CPE shoe covers are more durable than polypropylene and will help keep floors and walkways clean from outside foreign matter found on the soles of shoes. They also protect the wearer's shoes from many liquids and contaminants in the workplace.

All these shoe covers are water resistant and come with a strong elastic closure. One size fit most. Fits up to a men's size 12 1/2 shoe.

Available in a variety of weights and colors that will provide a solution for nearly any application.
