

Surface Protection

Carpet Guard® and Enviromat® are temporary adhesive films designed for use in controlled environments, construction sites, commercial and residential buildings, as well as marine and retail markets. Carpet Guard® and Enviromat® can be used whenever, and wherever there is a need to reduce the amount of dirt and dust in an area.

Enviromat®

Enviromat® contamination control is a multi-layered and numbered adhesive pad that removes particulates from the soles of footwear prior to entry into a clean or controlled environment. Once the top layer is soiled, it can be easily removed to expose the next clean layer.

Carpet Guard®

Carpet Guard® easily rolls out onto carpet and stays in place, offering protection for up to 45 days. Made of a tough polyethylene material, Carpet Guard® is an excellent product to protect stairways, hallways, entrances, and exits, or any high-traffic area in homes and offices.
